

SHELLEY & POPE

Dental Practice and Referral Centre

WE'RE REFERRAL READY! INCLUDING AGPs

We are now accepting patient referrals as normal, including emergencies that require AGPs

We appreciate that some practices are not yet ready to open fully but we're here to help. If you're having difficulty in treating a patient that needs an AGP urgently, we are happy to accept them subject to our screening and temperature checks. Our current fees are published on our website and on our fee guide leaflet. We are, of course, also open for our normal referral service, taking all the appropriate precautions to keep your patients safe.

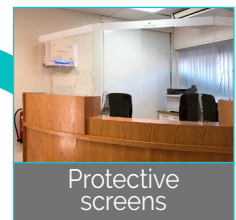

- Dental implants
- Crown and bridge
- Wear cases
- Dentures
- Endodontics
- Apical surgery
- Occlusal problems
- Failing restorations
- The broken down dentition
- Dental emergencies requiring AGPs
